

Centre for Medical & Health Sciences Education CMHSE

Postgraduate Programmes in Clinical Education

The Centre for Medical and Health Sciences Education offers full and part-time qualifications for doctors, nurses and other health professionals involved in delivering undergraduate, postgraduate or specialist education and training. Our programmes aim to provide you with a theoretical base and develop your practical skills in teaching and education research. The programmes available are:

- Master of Clinical Education
- Postgraduate Diploma in Clinical Education
- Postgraduate Certificate in Clinical Education

The modular programmes offer a range of core and optional blended learning courses, delivered primarily through online learning. Most courses also include one or two contact days and on-going support is offered. The CMHSE offers courses in the following areas:

Clinical teaching	Curriculum & course design	Research project on assessment
Assessing clinical performance	Simulation and clinical skills	Research project on evaluation
Learning in small groups	Research methods in health	
E-learning and clinical education	Interprofessional learning
